FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue** (DOR) assume this proposal will have minimal revenue impact, since the number of applicants is estimated at only 200. Based on information received from the sponsor of this legislation it is estimated that approximately 4,000 individuals in Missouri would be eligible for the proposed Greek license plate. It is assumed that 5% of this membership will apply for this new plate type. Since this only equates to 200 applications the Motor Vehicle Bureau will use existing resources to implement this proposal. The MVB will also incur costs for policies, procedures, postage, plates and tabs; however, this cost will also be absorbed through existing resources.

Officials from the **Department of Highway and Transportation** stated they were unable to provide an estimate for this proposal. Therefore, they must rely upon the DOR's response.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This bill allows for a special license plate for members of the Delta Sigma Theta or Omega Psi Phi Greek organizations. To obtain the special plate, individuals must obtain an emblem use authorization statement from the respective organization for a \$25 fee and present it to the Department of Revenue along with a payment of a \$15 fee in addition to the registration fee and any other documents required by law.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
